

# Light (feat. Little Dragon)

## ODESZA

I gave my cards away, would lose the game for you  
Each second slipped away, did not know what to do  
Was always drawing secrets on your wall  
My clothes were always falling on your floor  
A reckless heart could never be much more  
I always snuck in late  
Running through the front gate  
Light, floating on a feather  
Light, landing on forever  
Light  
Our trip surreal, so high  
We flew right through the roof  
Those nights you never came home  
I stayed up needing you  
Was always writing poems in math books  
My idols were the clever fast crooks  
This reckless heart could never be much more  
I always snuck in late  
Rushing through the front gate  
Light, floating on a feather  
Light, landing on forever  
Float on a feather, land on forever
