

# Too Far Gone (feat. Anna Clendening)

## Lost Kings

Started buying me coffee in the morning  
You never do that  
I'm stopping conversations asking if I'm boring you Why do I do that?  
We feel bad for no good reason  
Every word we overthinking  
Couldn't get it right but, baby, we tried Tried so hard to save us but we're too far gone  
So let's just make this a little easier, a little easier Come meet me at our funeral and help me dig  
our grave  
We'll say some words and shed a tear and then we'll walk away  
Put the memories we made in a casket, roses in the rain  
Come meet me at our funeral so we can dig our, we can dig our grave  
Who's gonna be the first one to say it?  
'Cause that's where we're at  
We feel the same but we're too scared to face it  
We're better than that  
Take my hand, we'll go together  
What we had is here forever  
Couldn't get it right but, baby, we tried Tried so hard to save us but we're too far gone  
So let's just make this a little easier, a little easier Come meet me at our funeral and help me dig  
our grave  
We'll say some words and shed a tear and then we'll walk away  
Put the memories we made in a casket, roses in the rain  
Come meet me at our funeral so we can dig our, we can dig our grave Tried so hard to save us  
but we're too far gone  
So let's just make this a little easier, a little easier  
Come meet me at our funeral and help me dig our grave  
We'll say some words and shed a tear and then we'll walk away  
Put the memories we made in a casket, roses in the rain  
Come meet me at our funeral so we can dig our, we can dig our grave We can dig our grave  
We can dig our, ooh-ooh-woah, ooh, ooh  
We can dig our
