

# Melt (Tasty) [Promise Land Remix]

## Blinders

You can make my earlobes freeze  
But what else can you do with me  
My neck is freezing up But I'm thinking about a different kind of jewellery  
And diamonds ain't a girls best friend  
This dime needs your attention  
Money can't replace you  
Buy your girl a favour Could you be in my arms  
Could you show a little love  
'Cause I'm cold as hell  
And all that I want is for you to make me melt  
Heat me up baby  
I'm the coldest I've felt  
And all that I want is for you tasty  
(Tasty)  
So quit throwing frost on this  
Give me a weather that I can't resist  
Rolex on my wrist but the time ain't what I miss  
Only thing waiting on you is my lips babe You can't sell me no brands  
State your name on my heart like a man  
No Tiffany Bulgari  
The only name on my list Be in my arms  
Could you show a little love  
'Cause I'm cold as hell  
And all that I want is  
For you to make me melt  
Heat me up baby  
I'm the coldest I've felt  
And all that I want is for you tasty  
(Tasty...)  
When you touch my body you make me melt  
When you say you want me you make me melt  
When you touch my body you make me melt  
When you say you want me you make me melt  
Could you be in my arms  
Could you show a little love  
'Cause I'm cold as hell  
And all that I want is for you to make me melt  
Heat me up baby  
I'm the coldest I've felt  
And all that I want is for you to make me melt  
(Tasty...)  
For you to make me melt

(Tasty...)  
For you to make me melt  
(Tasty...)  
For you to make me melt
