

Sing

Modestep & Trolley Snatcha

Close my eyes and hear your breath
Please don't fail me now
Close my eyes and wish for when
I could hear you somewhere, somehow If you could sing a song
And life will pick me up
The world will turn me round
If you could sing some
And life will pick me up
You'd be with me now
And you'll be singing
Cause we can sing it loud Close my eyes and hear your breath
Please don't fail me now
Close my eyes and wish for when
I could hear you somewhere, somehow
If you could sing a song
And life would pick me up
The world would turn me round
If you could sing a song
And life would pick me up
You'd be with me right now
And you'll be singing Cause we can sing it loud
