

# Adore You

Maisie Peters

Eyes meet across the floor  
Your name, my underscore  
My friends say, "What you waiting for?" (Maisie, oh, what are you waiting for?)  
Fast forward, we're an easy thing  
And your touch is a Paris spring  
And my home is yours to settle in Oh, you're always on my team  
And I know, and I know  
That sometimes I make it difficult to be  
So high, feel I am floating  
So good that I'm outta my head  
So long, baby, I was hurting  
You make it better again  
Oh, we got caught in the moment  
And I'll lay with you all night  
So good that now I'm hoping  
You'll hold me down for life  
I adore, I adore, I adore you  
Oh, you know  
I adore, I adore, I adore you My past was kinda hit and miss  
I closed off, became a battleship  
But you, babe, I'm at your fingertips  
Woah, your fingertips  
And this love, it's a subtle change  
Now I have plans, oh they're in uppercase  
And I trust everything you say  
'Cause you're always on my team  
Even when nobody else would be  
And I... So high, feel I am floating  
So good that I'm outta my head  
So long, baby, I was hurting  
You make it better again  
Oh, we got caught in the moment  
And I'll lay with you all night  
So good that now I'm hoping  
You'll hold me down for life I adore, I adore, I adore you  
Oh, you know  
I adore, I adore, I adore you  
Oh, you know  
I adore, I adore, I adore you  
Oh, you know  
I adore, I adore, I adore you 'Cause you're always on my team  
And I know, I know

That sometimes I make it really, really hard to be  
So high, feel I am floating  
So good that I'm on the edge  
So long, baby, I was hurting  
You make it better again  
Oh, we got caught in the moment  
And I'll lay with you all night  
So good that now I'm hoping  
You'll hold me down for life  
I adore, I adore, I adore you  
Oh, you know  
I adore, I adore, I adore you  
Oh, you know  
I adore, I adore, I adore you  
Oh, you know  
I adore, I adore, I adore you
