

# This Devil's Workday

## Modest Mouse

All those people that you know  
All those people that you know  
All those people that you know  
    Floatin' in the river are logs  
    I could buy myself a reason  
    I could sell myself a job  
I could hang myself on treason  
All the folks I know are gone  
All the people that you know  
All the people that you know  
All the people that you know  
    Floatin' in the river are logs  
    So I ate the wedding cake  
'Til the whole damn thing was gone  
And I'm gonna drown the ocean  
Now ain't none o' that so wrong?  
    All the people that you know  
All those people that you know  
All those people that you know  
Gonna take this sack of puppies  
    Gonna set it out to freeze  
Gonna climb around on all fours  
'Til all the blood falls out my knees  
    All the people that you know  
    All the people that you know  
All those people that you know  
    Floatin' in the river are logs  
Well let's take this potted plant  
    To the woods and set it free  
    I'm gonna tell the owners  
Just how nice that was of me  
    I could buy myself a reason  
    I could sell myself a job  
I could hang myself on treason  
For I am my own damn God
