

# Dance on My Own (Hostage Remix)

## M.O

Played me once  
Played me twice  
Still I don't know why I come here  
Left me standing on my own  
Never thought you'd be that cold Never mind I'm sure ill find someone that's just like you  
Should have left you time ago just like my friends had told me too  
You can cheat with other freaks yeah they'll believe your lies  
As long as you don't waste my time Won't be waiting on your love no more  
Won't waste my time fighting for you like before  
And leave my shhh. before you walk out the door  
Coz I'm in heaven just me and the dance floor So I will dance on my dance on my own  
Dance on my dance on my own  
Dance on my dance on my own x2  
Standing out from the crowd  
Stop pretending you don't see me  
THANK you now  
Take a bow  
I'm the one who got away Never mind I'm sure ill find someone that's just like you  
Should have left you time ago just like my friends had told me too  
You can cheat with other freaks yeah they'll believe your lies  
As long as you don't waste my time Won't be waiting on your love no more  
Won't waste my time fighting for you like before  
And leave my shhh... before you walk out the door  
Coz I'm in heaven just me and the dance floor So I will dance on my dance on my own  
Dance on my dance on my own  
Dance on my dance on my own x2  
Gonna dance the night away  
Watch me dancing the night away Won't be waiting on your love no more  
Won't waste my time fighting for you like before  
And leave my shhh... before you walk out the door  
Coz I'm in heaven just me and the dance floor So I will dance on my dance on my own  
Dance on my dance on my own  
Dance on my dance on my own x2
