

# 7 Ways

## ABS

I dont know who but it wasn't me  
he wasn't all that u thought he'd be  
an then broke your heart, girl u should have let me know  
coz u left the kind of heart for me to showjust how it feels when im next to you  
coz them other girls are nothing next to you  
no doubt in my mind coz i know its you  
so tell me lady what you wanna do(Bridge)  
coz loving you, its all that i know girl  
why would i lie  
if you want me to, i'll give you just a little more time to decide  
if i could be (if i could be)  
your everything (your everything)  
just you to me (just you to me)  
my everything  
(Chorus)  
im looking into the mirror at 5am  
waiting for your call in the pouring rain  
sugar coated kiss and a lipstick mark  
there are 7 ways of breaking my heart  
coded conversation and bad tv  
loosing all original chemistry  
walking back and dancing on friday night  
there are 7 ways of breaking my heartturn off the TV  
we need to talk about the way, cos i thought i heard you say  
something bout not being there for you  
so what do i have to do to show i care for you  
im saying i could be the one, no more playing girls for fun  
baby let me prove i got just what you need  
if you give me half a chance to,  
romance you  
coz u made me feel complete  
(Bridge)  
coz loving you, its all that i know girl  
why would i lie  
if you want me to, i'll give you just a little more time to decide  
if i could be (if i could be)

my everything(Chorus)
