

# Porcelain Heart

## BarlowGirl

Broken heart, one more time  
Pick yourself up, why even cry  
Broken pieces in your hands  
Wonder how you'll make it whole  
You know, you pray, this can't be the way  
You cry, you say, something's gotta change  
And mend this porcelain heart of mine, of mine  
Someone said a broken heart  
Would sting at first then make you stronger  
You wonder why this pain remains  
Were hearts made whole just to break  
You know, you pray, this can't be the way  
You cry, you say, something's gotta change  
And mend this porcelain heart of mine, of mine  
Creator only you take brokenness  
And create it into beauty once again  
You know, you pray, this can't be the way  
You cry, you say, something's gotta change  
You know, you pray, this can't be the way  
You cry, you say, something's gotta change  
And mend this porcelain heart  
Please mend this porcelain heart of mine, of mine  
Creator mend this heart
