

We Own the Night

Hollywood Undead

Got the top down, gonna baptize you bitches
Cause you know you cop out, calm down
All you motherfuckers do is talk loud, you're sold out
And every single one of you is cold now
My town, thirty-deep, we're 'bout to fucking roll out Look alive as I light up the sky
And pump up the 12 gauge, and blow off in disguise
No surprise, there ain't no compromise
They dumbbed up these motherfuckers, hit them straight in the eyes Ain't no one un-named is
King in the Land of the Blood
And so you wanna live forever? But today you will die
It's your time!
Here you lie as I crucify,
You're the boy who will cry and I'm the wolf of goodbyes
And every single page is drawn in blood, can't you see?
Plus it's because, you're triple six feet in the deep
And I'll send you straight to the afterlife for fucking with me
Hollywood to the death, undead put you to sleep! Can't fall, can't die
Tonight we're so alive
Singing whoa, we own the night
Whoa, we own the night
We call, you rise
With you, we never die
Singing whoa, we own the night
Whoa, we own the night Broken words so I've been told
If you wanna throw some blows
We can go toe to toe
Kick the door and throw it open
No one knows, I thought I told 'em
Thought you had it, now you're choking
People dropping, bodies folding
Say "Undead", two coffins open Praying to that holy ghost
He can't save you, there's no hope
Looking through that barrel smoke
Pull the trigger, let it go The game just doesn't end the closer
You can't sink down any lower
We couldn't get any colder
With these devils on our shoulders Is someone popping shots? Now someone called the cops
And when the dust settles, you know we gon' be on top
Smoking till I'm under six feet on the dock
Welcome to the jungle, we got beef on the block Charlie's rolling through your hood, Funny at
his side
Looking like a fucking pain parade passing by

And we hopping out the Jeep, if you fuckers wanna die
Fucking with Undead is like committing suicide Can't fall, can't die
Tonight we're so alive
Singing whoa, we own the night
Whoa, we own the night
We call, you rise
With you, we never die
Singing whoa, we own the night
Whoa, we own the night This time, this time we will all rise,
All rise for the lost lives, lost lives for the last time
For the last time, we will all rise
For the last time, we will all rise
For the last time, we will all rise
For the last time, we will all rise Can't fall, can't die
Tonight we're so alive
Singing whoa, we own the night
Whoa, we own the night
We call, you rise
With you, we never die
Singing whoa, we own the night
Whoa, we own the night Whoa, we own the night
Whoa, we own the night
Whoa, we own the night
Whoa, we own the night
