

Crystal Visions

The Big Pink

She held lightning in her hands
She's been cornered by the man
I pretend no answering riot
As we hid it on the hill we ran
Fuel the mission
With our passion
Fighting still we ran Do you know the way
To the silver coloured road
By the city that's run dry
On a sequin covered horse
And they're waiting for us to arrive
200 naked pure gold girls
And then I said I'll watch them ride
Made of crystals in the sand
If you want to taste you can
In the city where the people are alone
She held lightning in her hands
She's been cornered by the man
I pretend no answering riot
As we hid it on the hill, we ran
Fuel a mission
With the passion
Fighting still, we ran Do you know the way
To the silver coloured road
By the city that's run dry
To the sequin covered horse
And they're waiting for us to arrive
200 naked pure gold girls and then I said
I'd watch them ride
Do you know the way
To the silver covered road
By the city That's run dry
To the sequin covered horse
And they're waiting for us to arrive
200 naked pure gold girls and then I said
I'd watch them ride
