

# Heads Above

## WhoMadeWho

Keep our heads above the water, for air  
Bad imitation of other lovers, flare  
With harmony beats permanent  
Could you break my visions?  
Little by heart, the rest decisions And the longer we go, calling out And the longer we go, just  
calling out  
Someone that I knew came and took the fight  
Something I did was right, just calling out  
Baby what you do is gonna be alright Feed the hungry, leave you nothing  
Water waste at the bitter ending  
With harmony beats permanent  
Can I break your heart?  
At least we tried to build up something But the longer we go, calling out  
And the longer we go, just calling out  
Someone that I knew came and took the fight  
Something I did was right, just calling out  
Baby what you do is gonna be alright
