

# When a Woman

Shakira

When a woman, when a woman loves  
When a woman, when a woman loves a man  
When a woman, when a woman loves  
When a woman, when a woman loves a man Manipulate and cause you pain  
But lift you up when you're hurting  
Screamed goodbye, left when you cried  
And buckle the tears when they're burning  
I felt it deep inside of me  
Like an explosion of crazy  
All of this, all you give  
I feel it deep  
'Cause only a woman can get this dark  
Only a woman can cause these scars  
Only a woman can love this hard  
Only a woman  
Yeah, when this woman loves a man  
She'll take you to hell and back  
Take you to hell and back When a woman, when a woman loves  
When a woman, when a woman loves a man  
Only a woman, only a woman knows  
How a woman is supposed to love a man  
When a woman, when a woman loves  
When a woman, when a woman loves a man  
Only a woman, only a woman knows  
Oh, oh  
Don't need to hear my apologies  
You're being so damn complicated  
The ups and downs, the outs and ins  
It's what it is 'Cause only a woman can get this dark  
Only a woman can cause these scars  
Only a woman can love this hard  
Only a woman  
Yeah, when this woman loves a man  
She'll take you to hell and back  
Take you to hell and back When a woman, when a woman loves  
When a woman, when a woman loves a man  
Only a woman, only a woman knows  
How a woman is supposed to love a man  
When a woman, when a woman loves  
When a woman, when a woman loves a man  
Only a woman, only a woman knows  
Oh, oh And even when you won't admit

You know you're gonna need  
To be next to the only woman who can make you feel that kind of fire  
No, you won't get tired  
And when you think it's all I got  
I'll bring it up a notch  
I'll take you on a crazy ride, you'll never get enough  
Baby, I'm your girl  
And this is how I show my love 'Cause only a woman can get this dark  
Only a woman can cause these scars  
Only a woman can love this hard  
Only a woman  
Yeah, when this woman loves a man  
She'll take you to hell and back  
Take you to hell and back When a woman, when a woman loves  
When a woman, when a woman loves a man  
Only a woman, only a woman knows  
How a woman is supposed to love a man  
When a woman, when a woman loves  
When a woman, when a woman loves a man  
Only a woman, only a woman knows  
Oh, oh
