

Smile (feat. Elderbrook)

Gorgon City

When the trees are stripped back
And the skies are dark winds
Oh when the leaves hit the ground
But they take flight
Little one, don't cry for the winter
I know you're cold for a little while
See the mist in the distance linger
And you smile
Oh yeah
But you smile like everything's alright
alright when you smile
Oh but you smile like everything's alright alright when you smile So look at me in the cool
breeze
Put my head high in the white light
You know I pick up pace when I take lead
Another look in your eyes oh
Just us when the dust grows in
So keep close when the cold bites
Oh you wanna keep on holding
And you smile But you smile like everything's alright
alright when you smile
But you smile like everything's alright
alright when you smile Uhh uhh
But you smile like everything's alright
alright when you smile
But you smile like everything's alright
alright when you smile
