

Giving Me a Chance

Gotye

You know I never want to let you down
It cuts me up to see you sad
And I wish that I could undo what I've done
Give back the faith in me you had You know I love you more than anyone
But I get a little wrapped up in myself
But you know I never want to do you wrong
Bring into question what we have I know I let you down
I know I let you down
But you're giving me a chance
I know I let you down
I know I let you down
But you're giving me a chance
