

Right On

OMC

Oh, do you remember
When we were young?
We just had fun Pedal to the metal, shine into the steel
Sitting up front, Elivisi by the wheel
Putting out of Island Bay, weather looking fine
Flick the switch, needle twitch, FM to the dial Buddy Toledo singing to the songs
Watching all the P? s and Q? s, nothing can go wrong
Dino Valentino and his lady, flashes cash as the deals go by
So good to be alive, right on, right on Oh, do you remember
When we were young?
We just had fun
Pieces to the puzzle, music is the word
Franko? s on the show, flying out the bird
Somersaults and figure eights, breaking all the rules
Pushing all the pushers, The King of the New School Buddy Toledo fronting on the stage
Pacifies the masses with a smile and a wave
Dino Valentino and his lady counts the cash as deal goes by
So good to be alive, right on, right on Oh, do you remember
When we were young?
We just had fun Oh, do you remember
When we were young?
We just had fun Oh, do you remember
When we were young?
We just had fun
Oh, do you remember
When we were young?
We just had fun Oh, do you remember
When we were young?
We just had fun
