

# Vertigo (feat. Jordin Sparks)

Jason Derulo

Hey girl, I know this shit might sound crazy  
Before you get in bed, though, in those heels  
Hey girl, now I know why you waited  
Had to be sure that I was worth the thrill  
Ladies come and go but you got something different  
Had me so addicted from the start  
And I'd never known all this loving I'd be missing  
If I didn't work my way into your heart You give me vertigo, vertigo  
The bed, the floor, the kitchen  
Don't really matter long as I get  
Vertigo, vertigo  
I'm tucked, all bottled inside  
You're a bad baby, you're making me sweat  
Tell me that it's cool that I'm stuck on you  
Like your birthday suit  
You give me vertigo, that vertigo The way that you please me sets this room on fire  
I'm burning with desire in this bed  
So if I'm dreaming please don't wake me up  
If all of this is happening in my head  
Waited for so long  
But what you got is different  
Had me so addicted from the start Boy, I'd never known all the shit that I was missing  
If I hadn't worked my way into your heart You give me vertigo, vertigo  
The bed, the floor, the kitchen  
Don't really matter long as I get  
Vertigo, vertigo  
I'm tucked, all bottled inside  
You're a bad baby, you're making me sweat  
Tell me that it's cool that I'm stuck on you  
Like your birthday suit  
You give me vertigo, that vertigo I'm working downtown  
You all in my head  
This love that we found  
We'll never regret  
Were empty inside  
I'm filling you up with our vertigo  
You waking me up  
To nothing to say Right here in this bed  
We stay here all day  
And my head be spinning  
You do that to me with that vertigo You give me vertigo, vertigo  
The bed, the floor, the kitchen

Dont really matter long as I get  
Vertigo, vertigoIm tucked, all bottled inside  
Youre a bad baby, youre making me sweat  
Tell me that its cool that Im stuck on you  
Like your birthday suit  
You give me vertigo, vertigo  
Say you give me vertigo, vertigo  
Baby, oh  
Vertigo, vertigo  
Say you give me  
Say you give me  
Vertigo, that vertigo
