

Wind It Up

Gwen Stefani

High on the hill with the lonely goatherd

Lay odl lay odl lay he hoo

Yodel back with the girl & goatherd

Lay odl lay odl oh.

Wind It Up, Wind It Up, Wind It Up!

Odl lay odl lay odl-oo.

Yeah.

This is the key that makes us wind up

When the beat comes on, the girls all line up

And the boys all look, but no, they can't touch

But the girls want to know why boys like us so much.

They like the way we dance, they like the way we work

They like the way that L.A.M.B. is going 'cross my shirt

They like the way my pants, it compliments my shape.

She's crazy, right?

They like the way we react every time we hear the...

Every time the bass bang

Realize it calls your name

Let the beat wind you up

And don't stop 'til your time is up.

Get in line now.

Wind It Up! Uh, uh, uh.

Wind It Up! Uh, uh, uh.,.,.,.,.

Come on.

Wind It Up! Uh, uh, uh.

Odl lay odl lay odl-oo.

You've got to let the beat get under your skin

You've got to open up & let it all in

But see, once it gets in, the popping begins

Then you find out why all the boys stare.

See, they're trying to bite our style

Trying to study our approach

They like the way we do it, so original

I guess that they are slow, so they should leave the room

This beat is for the clubs & cars that go...

Every time the bass bang

Realize it calls your name

Let the beat wind you up

And don't stop 'til your time is up.

Get in line now.

Wind It Up! Uh, uh, uh.

Are you all ready?

Wind It Up! Uh, uh, uh.
Wind It Up! Uh, uh, uh...
Wind It Up!
Odl lay odl lay odl-oo.
Uh-huh, it's your moment
Uh-huh, come on girl, you know you own it
Uh-huh, you know your key is still tick-tockin'
Hell yeah, but you know they're watchin'.
Get it girl, get it, get it girl
Get it girl, get it, get it girl...
To the front, to the side
To the back, but don't let him ride
Keep goin' girl, it's your night
Don't let him steal your light
I know he thinks your fine & stuff.
But does he know how to wind you up?
Come on.
Wind It Up! Uh, uh, uh.
Wind It Up! Uh, uh, uh...
Wind It Up! Uh, uh, uh.
Wind It Up!
Odl lay odl lay odl lay, hey!
