

Just Like That (feat. Johnny Graves)

Pegboard Nerds

Good morning
Eyes opening
I can see the light shining through
Good morning
Blinds opening
I'm crawling home to you
Soft with the weather
Cool with the breeze
Flip through the pages of reality
Float like a feather
Out to the sea
Roam like a lion, living wild and free
Just like that
Snap my fingers
Just like that
Dreams get bigger
Just like that
Paint a picture
Just like that
Just like that
Just, just like Cause what you want, you'll have it
Just like
Just like that Just, just like Anything you want, you can have it
Whatever you need, you can grab it
Just like that
Anything you want, you can have it
Whatever you need
What you need
Good evening
Eyes closing
We can see the stars shining through
Good evening
Blinds closing
It's just me and you
Soft with the weather
Cool with the breeze
Flip through the pages of reality
Float like a feather
Out to the sea
Roam like a lion, living wild and free
Just like that
Snap my fingers

Just like that
Dreams get bigger
Just like that
Paint a picture
Just like that
Just like that
Just, just like Cause what you want, you'll have it
Just like
Just like that Just, just like
Anything you want, you can have it
Whatever you need, you can grab it
Just like that
Anything you want, you can have it
Whatever you need
What you need
