

I Don't Believe In You

Duncan Sheik

Life is like a sinking ship
And you are at the wheel
I see the hull, it's filling up
You know your fate is sealed Still you keep on trying
To steer the ship to shore
It's time to learn the lesson
You have known before Well there's nothing you can do
And we don't believe you
No there's nothing you can ever do
And we don't believe in you
No we don't believe in you
Life is like a ship at sea
Where fears storms do strike
Though you are the captain
You can't keep up the fight The truth is there is much to fear
More to make us cry
This ship is not worth saving
Hard as you may try So there's nothing you can do
'Cause we don't believe you
No, there's nothing you can do
And we don't believe in you I hate to say it
But it's to face the truth
And we don't believe in you
Tried your hardest
You couldn't help but lose
And we don't believe in you
No we don't believe in you
No we don't believe in you
