

# Stop Being Greedy

DMX

Y'all been eatin' long enough, now stop bein' greedy  
Just keep it real partner, give to the needy  
Grips is touchy, so don't make me wait  
Fuck around and I'm gonna bite you an' snatch the plate I could flip that flow, I could stick that  
hoe

I can get that dough, you know I'm with that Jo  
An' the thing about the shit I came through, I haven't seen  
But when it gets dark, it's like a nigga's havin' dreams  
All nightmares, the light dares to desert me  
Got me like everybody wants to hurt me  
Paranoid, so I strike out at whatever  
The closest thing to me is gonna get it  
But, never will I, can I think death is wrong  
So I'm a keep holdin' on till what's left is gone  
You could put that on my nigga bone  
These other rap cats will give a nigga room  
But if it calls for me to force my way in the door  
Headhuntin' mother fuckers, stay on the floor  
Four, four, that's what I get sick wit'

Four more, now all this is liquid Y'all been eatin' long enough, now stop bein' greedy  
Just keep it real partner, give to the needy  
Grips is touchy, so don't make me wait  
Fuck around and I'm gonna bite you an' snatch the plate Y'all been eatin' long enough, now stop  
bein' greedy

Just keep it real partner, give to the needy  
Grips is touchy, so don't make me wait  
Fuck around and I'm gonna bite you an' snatch the plate  
I thank the lord everyday that I'm blessed with a gift  
I'm the best, so, unless you wanna rest with the stiff  
Don't touch that, leave it alone  
When you walk past the dog house, leave it a bone  
Dogs bite, dogs fight, dogs knife  
Scratch, shake and hold all night  
So when you hear the, arf arf, start runnin'

'Cause when you hear the, arf arf, I'm comin' But I don't like drama, so I stay to myself  
Keep focus with this rap shit and pray for the wealth  
I want the money and give me the honeys with big asses  
The most expensive champagne you got in big glasses  
I'm drunk so I'm a bash his head wide open  
Beggin' me to stop but at least he died hopin'  
Didn't get his wish, and now he's a dish with a cat  
Two glowin' red eyes, everything else black Y'all been eatin' long enough, now stop bein' greedy

Just keep it real partner, give to the needy  
Grips is touchy, so don't make me wait  
Fuck around and I'm gonna bite you an' snatch the plateY'all been eatin' long enough, now stop  
bein' greedy  
Just keep it real partner, give to the needy  
Grips is touchy, so don't make me wait  
Fuck around and I'm gonna bite you an' snatch the plateWhen the sun is up, the gun is up on the  
shelf  
And all the runners up are thankin' me for their help  
Hopin' that they not around when it gets dark outside  
Sun's goin' down you hear the bark outside  
Locks off the cage, gauge, with the buck shots, faggot  
You've been lucky all day this is where your luck stops  
One drops and another and another  
Gun pops, go into you and your motherWhen does it all end, I found a friend in a dog  
'Cause fuckin' wit' these cats will send a friend to the morgue  
Many questions, no answers, just stress  
Try to hold my head and remember that I'm blessed  
If you curse and it gets worse, time goes by  
Can't see straight 'cause I'm so high  
Why ask why when you know?  
Nigga when its your time to go, you goY'all been eatin' long enough, now stop bein' greedy  
Just keep it real partner, give to the needy  
Grips is touchy, so don't make me wait  
Fuck around and I'm gonna bite you an' snatch the plateY'all been eatin' long enough, now stop  
bein' greedy  
Just keep it real partner, give to the needy  
Grips is touchy, so don't make me wait  
Fuck around and I'm gonna bite you an' snatch the plateY'all been eatin' long enough, now stop  
bein' greedy  
Just keep it real partner, give to the needy  
Grips is touchy, so don't make me wait  
Fuck around and I'm gonna bite you an' snatch the plateY'all been eatin' long enough, now stop  
bein' greedy  
Just keep it real partner, give to the needy  
Grips is touchy, so don't make me wait  
Fuck around and I'm gonna bite you an' snatch the plate
