

Power

Hardwell & KSHMR

I fill you up with bones
That could never break.
Take you to a darker
Shade of grey
Warm you like a sun
That will never fade
Ooh, ooh
This is power
This is power
This is power
This is power, power, power
Power
This is power
This is power
This is power
This is power, power, power
I'll give you every heart
Of a hundred souls
You could be the fire
To kill the cold
I'll break you like a rock
That could never hold
Ooh, ooh
This is power
This is power
This is power
This is power, power, power
Power
This is power
This is power
This is power
This is power, power, power
