

# Headlights (Extended Version) [feat. Ilsey]

[Robin Schulz](#)

Oh, I know why you chasing all the headlights  
Oh, 'cause you always tryna get ahead of light  
    Baby, when you go  
You know I'll be waiting on the other side  
    And I know it's cool  
But if you stay then I could keep you warm at night  
Don't be a fool for the city nights  
    I know it's cool but it's only light  
    Baby, with you I can never lie  
Don't go chasing all the headlights  
Oh, I could feel the beating of your heart ache drum  
Oh, don't know if I'm dreaming or if you have gone  
    Every time you go  
    Hits me like a bullet from a golden gun  
    Yeah, I know it's cool  
But if you stay then I could give you all my love  
Don't be a fool for the city nights  
    I know it's cool but it's only light  
    Baby, with you I could never lie  
So don't go chasing all the headlights  
    Oooohh!  
    Don't be a fool for the city nights  
    I know it's cool but it's only light  
    Baby, with you I could never lie  
So don't go chasing all the headlights
