OK (feat. James Blunt) [Black Saint Remix]

Robin Schulz

I really need you
I really need your love right now
I'm fading fast
Not gonna last
I'm really stupid
I'm burning up, I'm going down

I win it back

Don't even ask

When I found myself in the middle, in the middle, in the middle

Could you love me more, just a little, just a little

Overcomplicate when it's simple, when it's simple, when it's simple

Would you love me more, just a little

So tell me now

When every star falls from the sky And every last heart in the world breaks

Oh hold me now

When every ship is going down

I don't feel nothing when I hear you sayIt's gonna be OK

It's gonna be OK

It's gonna be OK

It's gonna be OKI'm really sorry

Sorry I dragged you into this

I only think, that's all it is

The way you love me

The way you love me 'til the end

The way you love me

Oh yeah, it makes me king again

When I found myself in the middle, in the middle, in the middle Could you love me more, just a little, just a little

Overcomplicate when it's simple, when it's simple, when it's simple

Would you love me more, just a littleSo tell me now

When every star falls from the sky

And every last heart in the world breaks

Oh hold me now

When every ship is going down

I don't feel nothing when I hear you sayIt's gonna be OK

It's gonna be OK

It's gonna be OK

It's gonna be OKIt's gonna be OK

It's gonna be OK

It's gonna be OK

It's gonna be OKIt's gonna be OK

It's gonna be OK
It's gonna be OK
It's gonna be OK
It's gonna be OK
It's gonna be OKWhen every ship is going down
I don't feel nothing when I hear you say
It's gonna be OK
