

# All Is Lost (feat. nothing,nowhere.)

## Getter

I still see it when I'm sleeping  
Every single evening  
Underwater and I'm screaming  
Nobody can hear me  
You say you wanna see me  
Like every other weekend  
So when you said that you were leaving  
You better faulted me then Funny how it changes  
Memories of places  
They talk 'bout how to waste it  
Nights where you were faded  
Always see your face and  
I can't even take it  
It always ends the same and  
I don't think I'll make it Funny how it changes  
Memories of places  
They talk 'bout how to waste it  
Nights where you were faded  
Always see your face and  
I can't even take it  
It always ends the same and  
I don't think I'll make it  
I don't think I'll make it  
I don't think I'll make it
