

# Gold and Silver

Dia Frampton

I miss the summer in the nineties  
Cold nights and smoking like a chimney  
A ceiling of stars  
I hoped I'd grow up like my sister  
Her eyes were bright for something bigger  
A dream from the dark  
She told me, hold on for another minute  
Let's not forget where our hearts live  
Hold on for another minute We'll stay young forever  
We'll stay young forever  
We're gold and we're silver  
So light  
I made a pillow of a suitcase  
Red lips and eyes that stared into space  
We'd figure it out  
We never waited for the next ride  
We parked our cars under the landslide  
We pushed off the ground You told me, hold on for another minute  
Let's not forget where our hearts live  
Hold on for another minute We'll stay young forever  
We'll stay young forever  
We're gold and we're silver  
So light  
We'll stay young forever  
We'll stay young forever  
We're gold and we're silver  
So light  
Kiss me, blue nights  
The words you want to hear  
They're on the tip of my tongue  
If I lose you now, I lose my mind  
We don't say goodbye  
You're a part of me, the best part actually  
Heaven is pleasantly  
I'll give the best of me  
You're in my memory, my memory We'll stay young forever  
We'll stay young forever  
We're gold and we're silver  
So light  
We'll stay young forever  
We'll stay young forever  
We're gold and we're silver

So light
