

# Escape

## KONGOS

Every few thousand years  
Come true man's greatest fears  
All the living things  
Mother nature brings - to tears  
When the bombs are bursting in the air  
And the rockets are making that red glare  
I'm heading down  
Down to that good hope town - where the weather's fair  
So why don't you come away  
With me my love  
We'll do what it takes  
I'll keep you safe  
Why don't you stay by me  
And when the time comes  
We'll escape  
When the big one finally hit's LA  
When Yellowstone has it's day  
We're heading to the southern tip  
On a plane or on a ship  
We'll do what it takes - we'll find a way  
And if that cloud forms up above  
No sign anywhere of a dove  
There'll be no reason left to stay  
We'll try and live another day  
In a place where there's still love  
So why don't you come away  
With me my love  
We'll do what it takes  
I'll keep you safe  
Why don't you stay by me  
And when the time comes  
We'll escape  
Ohhh oh oh ohh oh run away with me  
Escape  
Ohh oh oh ohh ohh run away with me  
Escape  
So why don't you come away  
With me my love  
We'll do what it takes  
I'll keep you safe  
Why don't you stay by me  
And when the time comes  
We'll escape (We'll escape)
