Dance the Pain Away (feat. John Legend)

Benny Benassi

I'll take my time
Let the tears fall down
From my face
Wash the pain away
We're all speeding
Lost in this race

And my heart's in a hearse

Can we put it in reverse, babeCause I can't even feel the drum and bass It's drowned out by the beat my heart makes

I hear that song but something is wrong

My mind's a million miles away

Ohh, Everybody's going to the floor

Maybe I don't want to dance anymore

Don't want to dance anymore

How can you dance the pain away

How can you dance the pain away

Oh dance the pain away

I can't dance the pain away

How can you dance the pain away

How can you dance the pain away

Oh dance the pain away

I can't dance the pain awayTouch that dial

I'm changing the station

Cause I can't smile

Like everyone else

Play my sad song

In heavy rotation

I won't go out

I'm trying to save myself

I can't even feel the drum and bass

It's drowned out by the beat my heart makes

I hear that song but something is wrong

My mind's a million miles awayOhh, Everybody's going to the floor

Maybe I don't want to dance anymore

Don't want to dance anymore

How can you dance the pain away

How can you dance the pain away

v can you dance the pain aw

Oh dance the pain away

I can't dance the pain away

How can you dance the pain away

How can you dance the pain away

Oh dance the pain away

I can't dance the pain awayI can't dance tonight
Oh everybody's movin but I'm tired
I can't dance tonight
I try to keep it movin but I but II can't dance the pain away
I can't dance the pain away
I can't dance the pain
