

# So Far Gone

## J Boog

Yeah Na Na Na Na eh  
Well ah well, this is a special delivery  
I just wanna let you know  
that i will never let you go  
'cause I'm so far gone, in love with you  
I just wanna let you know  
that i will never let you go  
never leave you in the cold  
'cause I'm so far gone in love with you  
You are my sweet loving empress  
without a doubt I know you are the world's gretest  
forever more, forever less  
day by day dealing with stress  
but still we love are truly blessed  
like a real lion you are real lioness  
sweet heaven she's a manifest  
i still love her strong  
keeping it conscious  
i just wanna let you know  
that i will never let you go  
never leave you in the cold  
cause I'm so far gone in love with you  
i just wanna let you know  
that i will never let you go  
never leave you in the cold  
cause I'm so far gone in love with you  
I'll tell you about all these phases  
got a whole book with all of them pages  
on the settle way and settle down  
you are the one i want to give me crown  
she keeps the fire blazing day and night  
and im truly blessed to be by your side  
and when I see your eyes  
thats when she say  
every little thing is gonna be alright  
i just wanna let you know  
that i will never let you go  
never leave you in the cold  
cause I'm so far gone in love with you  
i just wanna let you know  
that i will never let you go  
never leave you in the cold

cause I'm so far gone in love with you  
all them people gonna talk about  
us doing our thing  
get me silence to crown while i give you this ring (this ring)  
now our love is hotter than what a fire can bring  
nothing is better than??

So I say

i just wanna let you know  
that i will never let you go  
never leave you in the cold  
cause I'm so far gone in love with you  
i just wanna let you know  
that i will never let you go  
never leave you in the cold  
cause I'm so far gone in love with you  
i just wanna let you know  
that i will never let you go  
never leave you in the cold  
cause I'm so far gone in love with you  
i just wanna let you know  
that i will never let you go  
never leave you in the cold  
cause I'm so far gone in love with you
