

Pieces (Hushed)

Andrew Belle

You and me
Got ourselves a problem
I can see it's better than I solve 'em
I believe I found a way around it I will leave this better than I found it
There's too much smoke to see it
There's too much broke to feel this I love you, I love you And all of your pieces
There's too much smoke to see it There's too much broke to feel this
I love you, I love you And all of your pieces
History's a letter made of scarlet Victories look better when you've called it
Misery's the moment when I lost you
It's pleasure in a costume
It's more than what it cost you
There's too much smoke to see it
There's too much broke to feel this
I love you, I love you
And all of your pieces
There's too much smoke to see it
There's too much broke to feel this
I love you, I love you
And all of your pieces
All of your pieces
All of your pieces
All of your pieces
All of your pieces
All of your pieces
All of your pieces
There's too much smoke to see it
There's too much broke to feel this
I love you, I love you
And all of your pieces
There's too much smoke to see it
There's too much broke to feel this
I love you, I love you
And all of your pieces
