

La Di Da

VUKOVI

Love me, love me
You wanna leave
You wanna stay but told everyone but me
Hate me, hate me
You waste of space
I wanna know, tell me to my fucking faceWoo!So let me get this straight
You wanna stay
You wanna go
Just like before
And I'm the one that's crazed
I'm in the dark
When you go straight back to hell
Left high
And you left me dry
OhLove me, love me
You wanna leave
You wanna stay but told everyone but me
Hate me, hate me
You waste of space
I wanna know, tell me to my fucking faceLet me get this straight
You trade me in
Take me apart and laugh it off
And I'm the one that's crazed
And cracking up
While you go straight back to hellLeft high
And you left me dry
Oh
Love me, love me
You wanna leave
You wanna stay but told everyone but me
Hate me, hate me
You waste of space
I wanna know, tell me to my fucking faceLa lala lala lala
La lala lala la lala
La lala lala lala
La lala la lalaThe lies that you told
I heard them before
I heard that I want you tenfold times before
You told me you changed and you've not changed at all
You use and abuse me then come back for moreThe lies that you told
I heard them before
I heard that I want you tenfold times before

You told me you changed and you've not changed at all
You use and abuse me then come back for more
You use and abuse me then come back for
more
Love me, love me
You wanna leave
You wanna stay but told everyone but me
Hate me, hate me
You waste of space
I wanna know, tell me to my fucking face
Love me, love me
You wanna leave
You wanna stay but told everyone but me
Hate me, hate me
You waste of space
I wanna know, tell me to my fucking face
La lala lala lala
La lala lala la lala
La lala lala lala
La lala la lala
