

Exceptional

Babyface

There are days when I'm so mystified
That you have chosen me, yes

...

That every night before I close my eyes
I thank God that I am me
To know that you love me

...

To know that you care...
To know that you give of yourself
and yet still ask of nothing from me.
Your love is exceptional

...

Born of a heart of gold

...

It fills me up to my soul
...That my cup it overflows

...

You're my sunshine all day, all night

...

Always, for all time, baby
You're my heart light, star shine so bright...
Your love's unconditioned So exceptional!

...

Every night when I lie next to you
I lay in disbelief

...

That I'm worthy of deserving you...
That I get to live this dream, babe
To know that you want me
Is to know that I'm here...
To know that I live in your heart
Is to know that I'm blessed, and it's clear
...Your love is exceptional

...

Born of a heart of gold

...

It fills me up to my soul
That my cup it overflows

...

You're my sunshine all day, all night

...

For always, for all time

You're my heart light, star shine so bright

...

Your love's unconditioned

So exceptional!

...

You're my sunshine all day, all night

Always, for all times

...

You're my heart light, star shine so bright

Your love's unconditioned

So exceptional!

Your love is exceptional

Born of a heart of gold

It fills me up to my soul

...

That my cup it overflows

...

You're my sunshine all day, all night

...

For always, for all time

You're my heart light, star shine so bright

...

Your love's unconditioned

So exceptional!

...
