

Voices

Disturbed

So, are you breathing
So, are you breathing
No No, are you breathing
So, are you breathing
No

Wake up, are you alive Will you listen to me
I'm gonna talk about some freaky shit now
Someone is gonna die
When you listen to me
Let the living die, Let the living die
(say)

Wake up, are you alive
Will you listen to me
I'm gonna talk about some freaky shit now
Someone is gonna die
When you listen to me
Let the living die, Let the living die
(say)

Are you breathing now
Do the wicked see you
You still breathing
You're making me known
Are you breathing now
Do the wicked see you
You still breathing

So What's up, I wonder why
Do you listen to me
I'm gonna make you do some freaky shit now
Insane, you're gonna die
When you listen to me
Let the living die, Let the living die
(say)

What's up, I wonder why
Do you listen to me
I'm gonna make you do some freaky shit now
Insane, you're gonna die
When you listen to me
Let the living die, Let the living die
(say)

Are you breathing now Do the wicked see you
You still breathing
You're making me known

Are you breathing now
Do the wicked see you
You still breathing
So Can you imagine how good going will feel I promise, no one will ever know
There will be no chance of you getting caught
They never loved you anyway
So come on, be a man
And do what you are compelled to do
Save me God (echo) I can hear the voice
But I don't want to listen
Strap me down and tell me
I'll be alright I can feel the subliminal need
To be one with the voice
And make everything alright I can hear the voice
But I don't want to listen
Strap me down and tell me
I'll be alright I can feel the subliminal need
To be one with the voice
And make everything alright
Are you breathing now
Do the wicked see you
You still breathing
You're making me known
Are you breathing now
Do the wicked see you
You still breathing
So, are you breathing?
So, Do you breath now now
So, are you breathing?
So, Do you breath now
