We Are Impossible (feat. The Presets)

[Dillon Francis](#)

Put it down a little bit,
Let's talk about this mess we're making
Before we set the fireworks
Till the stars, till the stars
Tried to run away from this,
We questioned every chance we've taken
But something keeps dragging me back
To the start, to the startHey, we are impossibile
In a messed up world
We are impossibile
Hey, we are impossibile
In a crazy world
We are impossibile
Oh! We can't be separable,
So I pushed you away
We can't be separable,
Hey! We are impossibile
In a messed up world
We are impossibile
Waiting in an empty bay,
Haunted by our mind racing
I'm picking up pieces you've never
From my heart. From my heart
I'll let you fade away instead,
Fading like a sunset
But something keeps dragging me back
To the start, to the start
Hey, we are impossibile
In a messed up world
We are impossibile
Hey, we are impossibile
In a crazy world
We are impossibile
Oh! We can't be separable,
So I pushed you away
We can't be separable,
Hey! We are impossibile
In a messed up world
We are impossibile
Tell me something, something I need to hear
'Cause spending my times as we're miles away
I know that something's never gonna change

So put down your?? now we're close to the end,
Giving up on giving in
Yet something keeps dragging me back
To the start, to the start
Hey, we are impossibile
In a messed up world
We are impossibile
Hey, we are impossibile
In a crazy world
We are impossibile
Oh! We can't be separable,
So I pushed you away
We can't be separable,
Hey! We are impossibile
In a messed up world
We are impossibile! Hey!
