

# All That

## Carly Rae Jepsen

I wanna play this for you all the time  
I wanna play this for you when you're feeling used and tired  
I wanna make the best so you want more  
Just let me in your arms  
Just let me in your arms I'll be the magic you won't ever see  
You can always rely on me  
To help you do what you want to do  
I wanna be the best you've ever known  
Just let me in your arms  
Just let me in your arms  
Show me if you want me  
If I'm all that  
I will be that  
I will be your friend  
Show me if you want me  
If I'm all that  
I will be that  
I will be your friend I'll be your lighthouse when you're lost at sea  
I'll keep my light on, baby, you can always come to me  
I wanna be the place you call your home  
Just let me in your arms  
Just let me in your arms  
Show me if you want me  
If I'm all that  
I will be that  
I will be your friend  
Show me if you want me  
If I'm all that  
I will be that  
I will be your friend When you need me  
I will never let you come apart  
When you need me  
I will be your candle in the dark  
When you need someone  
Oh, let me be the one  
The only one  
And the only one  
And the only one Show me if you want me  
If I'm all that  
I will be that  
I will be your friend  
Show me if you want me

If I'm all that  
I will be that  
I will be your friend(Show me if you want me)  
Show me if you want me  
If I'm all that  
(And I will be your friend)  
I will be that  
I will be your friend  
(Show me if you want me)  
Show me if you want me  
If I'm all that  
(And I will be your friend)  
I will be that  
I will be your friend(Show me if you want me)  
Show me if you want me  
If I'm all that  
(Show me if you care)  
I will be that  
I will be your friend  
(Show me if you want me)  
Show me if you want me  
If I'm all that  
(Show me if you care)  
I will be that  
I will be your friend  
(Show me that you care)I will be that  
I will be your friend  
(Oh, show me that you care)  
I will be that  
I will be your friend  
(Just show me that you care)
