

# Today

## Fuel Fandango

Today I have nothing inside  
I feel no emotions of any kind  
Today I have nothing inside  
I feel no emotions of any kind  
I used to feel Today... today  
Today I have nothing inside  
I feel no emotions of any kind  
Today... I realize  
Today... I will find  
Today There is no smile without tears  
There is no soul without brain  
There is no life without death  
There is no love without pain  
Today... today  
Today... I realize  
Today... today  
Today... today Today I make my way  
Through the dark  
I find my path  
Into the light There is no smile without tears  
There is no soul without brain  
There is no life without death  
There is no love without pain There is no smile without tears  
There is no soul without brain  
There is no love without pain  
There is no love  
Today... today... today  
Today... today... today  
Today... today... I realize  
Today... I will find  
Today
