

# What Mama Said

Manuel Riva & Misha Miller

Don't wanna live in this world  
It's like my senses got blurred  
I hear a whisper in my head  
It takes away all the dread  
So why why why can't we just stay  
Is it really really really just a hunger game  
I just prey  
We'll see a new day  
Can't forget what mama said  
Never to forget who I am  
Never to regret what I've done  
Just to be me with everyone  
Oh, can't forget what mama said  
Never to forget who I am  
Never to regret what I've done  
Just to be me with everyone  
Leave me alone in my dream  
Where love and peace live  
I wanna build a new world  
Baby give me your help  
So why why why can't we just stay  
Is it really really really just a hunger game  
We'll see a new day  
Can't forget what mama said  
Never to forget who I am  
Never to regret what I've done  
Just to be me with everyone  
Oh, can't forget what mama said  
Never to forget who I am  
Never to regret what I've done  
Just to be me with everyone
