

# Hard Work Pays Off

## Future & Juice WRLD

They say hard work pays off, I've been feeling paid off  
Tryna take your dingy ding, nay dawg  
Put the chopper at your head, and take it off  
Fast break, taking off  
Dunk on the bitch, drown, woah  
Keep niggas on they toes  
I ain't never play fair  
Don't nail a boss  
This an AK, yeah, put it to your skull  
Damn, thats blood all on my RICK OWENS Said I am now rich, rich, rich, rich, rich  
I'm richer than a bitch, bitch, bitch, white bitch  
Blue face everywhere  
Pull up, they stare  
Fendi, my underwear  
She suck my dick she like "Damn"  
I done need a money counter, (Count em')  
Money all on the kitchen counter  
I done need a money counter, (Count em')  
Money all on the kitchen counter  
Call my Dr. to handle my pain  
Perky's taking my life away  
I'm a bang your bitch, cause I can  
And I'm a go take your wife away  
Choppa on me Afghanistan  
Average killed many men  
Over the bag, over the cash, yeah  
I'm a money fan  
Over the bag, on your ass, yeah  
Hoping out the van  
Switched up the the Lamb  
How you niggas like me now, yeah  
No limit, the game  
Try it, they gonna shoot you down, yeah  
Loaded up, gonna gun you, down  
They say hard work pays off, I've been feeling paid off  
Tryna take your dingy ding, nay dawg  
Put the chopper at your head, and take it off  
Fast break, taking off  
Dunk on the bitch, drown, woah  
Keep niggas on they toes  
I ain't never play fair  
Don't nail a boss

This an AK, yeah, put it to your skull  
Damn, thats blood all on my RICK OWENS They say hard work pays off, I've been feeling paid off  
Dripping on them everyday, I been feeling paid off  
Put the chopper at your head, and take it off  
Fast lane, taking it off  
Breaking your ankle, criss cross  
Aye, aye, aye, aye, aye  
I'm so honored now my legacy will never fade  
I've been traumatized before but still I'm not afraid  
I done see friends turn foe it don't amaze me  
Came from the bottom of the creek that shit was ugly  
Made it to the top, where the streets was muddy  
Everybody around you change and I felt so neglected  
Hopping on the bird, with some birds, they respected (Yeah, yeah)  
Waterfalls, 7 everyday we get it in (Yeah, yeah)  
Yeah, started living on my dream, it felt like I was born again They say hard work pays off, I've  
been feeling paid off  
Tryna take your dingy ding, nay dawg  
Put the chopper at your head, and take it off  
Fast break, taking off  
Dunk on the bitch, drown, woah  
Keep niggas on they toes  
I ain't never play fair  
Don't nail a boss  
This an AK, yeah, put it to your skull  
Damn, thats blood all on my RICK OWENS
