

Scorn

Dope

"You're killing me!" Broken my face cut me to the bone
Trapped in this hate you imprison me
Gave up my face so just leave me alone
Strapped to the pain no forgiving me So fucking scorned that you wouldn't believe
I fill the tub with gasoline Nobody told me to hate
Nobody told me to feel
You always show me your pain
But you - you never taught me to heal Tear at the scab infect the wound
Take another stab at the enemy
Light up the flame fire up this room
Blowin' out my brains cause you're killing me
So fucking scorned that you wouldn't believe
I fill the tub with gasoline Nobody told me to hate
Nobody told me to feel
You always show me your pain
But you - you never taught me to heal Nobody told me to
Hate(repeated)
Nobody told me to
Hate(repeated) As I stand, and I wait, and I learn - I am in scorn
As I wait, and I die, and I burn, - I am in scorn Broken my face cut me to the bone
Trapped in this hate you imprison me
Gave up my face so just leave me alone
Strapped to the pain no forgiving me
So fucking scorned that you wouldn't believe
I fill the tub with gasoline Nobody told me to hate
Nobody told me to feel
You always show me your pain
But you - you never taught me to heal
Nobody told me to hate (nobody told me to hate)
Nobody told me to feel (nobody told me to hate)
You always show me your pain (nobody told me to hate)
But you - you never taught me to heal Nobody told me to
Hate(repeated)
Nobody told me to
Hate(repeated)
