

Sweet & Sour (feat. Lauv & Tyga)

Jawsh 685

[Intro: Lauv]

685, baby

Woo, yeah

Ah, ah (Sweet and sour)[Chorus: Lauv]

Sweet and sour there you go

Always putting on a show

But I always love the taste

So I can't leave you alone

Sweet and sour there you go

I don't think I'll ever know

But I always love the taste

So I can't leave you alone

[Verse 1: Lauv]

Breaking my heart ow

Thought you were the one wow

Your love is like candy rain

I'm standin' with my tongue out

And you can't pretend that we could be just friends

There's some things you can't explain

And you're my weakness, yeah

Monday, lick me lik? a lollipop

Tuesday, is she loving me or not?

W?dnesday, now she climbing back on top

I know she's bad for me but I don't ever wanna stop

Monday, lick me like a lollipop

Tuesday, is she loving me or not?

Wednesday, now she climbing back on top

I know she's bad for me but I don't ever wanna stop

[Chorus: Lauv]

Sweet and sour there you go

Always putting on a show

But I always love the taste

So I can't leave you alone

Sweet and sour there you go

I don't think I'll ever know

But I always love the taste

So I can't leave you alone

[Verse 2: Tyga]

Candy paint, ice on my pinky ring (ring)

Married to the game, don't need a wedding ring (Ring)

Loyalty and love will get you everything

A lot of people switched it up but you don't ever change

Nowadays you be poppin' got a lil name
You leave and then you runnin' back, climb on top of me
You with somebody else but he ain't like you and me
Shawty so fancy, trips to Miami (Yeah)
Woah (Woah)
When your, when your body don't stop let it go (Go)
Lately you been acting like a savage, I know
Wanna be a good girl, but you do the most
No schedule, just go with the flow
You know
[Chorus: Lauv]
Sweet and sour there you go (Yeah)
Always putting on a show
But I always love the taste
So I can't leave you alone
Sweet and sour there you go
I don't think I'll ever know
But I always love the taste
So I can't leave you alone [Outro: Lauv]
Yeah
Ay, hey, sweet and sour
(Sweet and sour there you go)
