

Whisper (feat. Nevve)

Boombox Cartel

All around me smoke is heavy
Going down deep I'm not ready
The world is burning but I don't even care
I'm just waiting for you to be there
Sirens are screaming and I just can't relax
Currents are strong and you're pulling me back
Cuz when I fall
And hit the wall
The only escape is your voice in the rain
And that's when you whisper
(Whisper)
And that's when you whisper
And that's when you whisper
Used to be so insecure
Always drowning in the storm
The sky is falling but you held up the air
Now I'm felling you everywhere
Sirens are screaming and I just can't relax
Currents are strong and you're pulling me back
Cuz when I fall
And hit the wall
The only escape is your voice in the rain
And that's when you whisper
