

# Shine On (Radio Mix)

## R.I.O.

Common just give it to me  
Give it to me  
Come on ya  
Come on girl  
Come on, just get to me  
Me love ya  
Comes out of devotion  
To rule ya  
Spread to the world  
In Trenchtown  
I'm on my mission  
Where we praise the day  
Straight our way  
All the nation  
Can't you feel it  
Come on, just give it to me  
Just give it to me  
Come on girl Let me be the love that comes form the sun  
Let me be your rainbow rising on  
Every single race out of space  
Will Shine on, shine on!  
Let me be the love that comes form the sun  
I wanna be your love light from above  
Shine on, shine on, shine oon! (shine on shine on...) Me love ya  
Comes out of devotion  
To rule ya  
Spread to the world  
In Trenchtown  
I'm on my mission  
Where we praise the day  
Straight our way  
All the nation  
Can't you feel it  
Come on, just give it to me  
Just give it to me  
Come on girl Let me be the love that comes form the sun  
Let me be your rainbow rising on  
Every single race out of space  
Will Shine on, shine on!  
Let me be the love that comes form the sun  
I wanna be your love light from above  
Shine on, shine on, shine oon! (shine on shine on...) Ok so i make up hands to the sky

Young as the sun shines through the window  
Be like god damn what a day  
Today I'm a flow like a leaf  
So well see where the wind blows  
Shine like you made of love  
Shine like a fading sun  
Cause if its half full life  
Aint only a good thing  
A promise you an amazing one  
Breeze through you fingers  
Take a look up  
Breath deep let it linger  
Talking bout dat get up get up  
Get out get on get on get to  
Man we all been there  
Just smile like a Capetown sun  
And keep light up like you just won the lotto  
Your hearts gonna keep you in front  
If you gotta good one thats the best thing to follow  
Let me be the love that comes form the sun  
Let me be your rainbow rising on  
Every single race out of space  
Will Shine on, shine on!  
Let me be the love that comes form the sun  
I wanna be your love light from above  
Shine on, shine on, shine oon! (shine on shine on...)
