

# Higher

## The Score

I've been up, I've been down  
Seen the world from the ground  
But I hear the drumming  
Now my veins are pumping  
Scraped my knees, bruised my heart  
It's where you end, not where you start  
I see them running  
Cause they see me coming I'm done with the noise that life seems to bring  
But I'll use my voice, it's my turn to sing  
Woo, woo  
You know that  
All my life  
I have been waiting, I have been waiting for this  
All my life  
I have been fighting, I have been fighting for this  
Dream in my soul  
And I won't let it go  
You know that  
All my life  
They try to keep me down but I just get higher  
Woah  
They try to keep me down but I just get higher  
Broke my bones, tasted blood  
Burned my wings close to the sun  
But I'll keep on flying  
I'm too young for dying  
Cause there's a dream I can taste  
Think it's time I break my chains  
And run with the giants  
Like smoke, I'm rising  
I'm done with the noise that life seems to bring  
But I'll use my voice, it's my turn to sing  
Woo, woo You know that  
All my life  
I have been waiting, I have been waiting for this  
All my life  
I have been fighting, I have been fighting for this  
Dream in my soul  
And I won't let it go  
You know that  
All my life  
They try to keep me down but I just get higher Woah
