

# Islands

## The xx

I don't have to leave any more  
What I have is right here  
Spend my nights and days before  
Searching the world for what's right here  
Underneath and unexplored  
Islands and cities I have looked  
Here I saw  
Something I couldn't over look  
I am yours now  
So now I don't ever have to leave  
I've been found out  
So now I'll never explore  
See what I've done  
That bridge is on fire  
Going back to where I've been  
I'm froze by desire  
No need to leave  
Where would I be  
If this were to go under  
That's a risk I'd take  
I'm froze by desire  
As if a choice I'd make  
I am yours now  
So now I don't ever have to leave  
I've been found out  
So now I'll never explore  
[x2]So now I'll never explore
