

# The Spark (feat. Spree Wilson)

## Afrojack

A little bit of misfit dancing  
A little bit of jojo dancing  
A little bit of thoughts of mine  
Coming out the mind of this midnight rambler  
I can't wait 'til these tunes of mine  
Get me out of this local jam  
Get up, up on that big stage now Show the world just who the heck I am  
Ever thank you if it all goes right  
You got something that could change your life  
Use that moment just to show your life Everything is gonna be alright  
Crashing through the stars, alright  
I'm screaming 'til the stars collide  
I'm tellin' everybody, that's right  
We all got the spark  
We all got the spark tonight  
Takin' back the way we are  
'Cause that's just the way we are  
I'm crashing through the dark, well alright We all got the spark  
We all got the spark tonight  
They say if you look around  
For something hard enough  
And you just might find it And there's some around who wanna keep you down  
But Shawty don't be blinded  
Feeling trapped  
Thinking that you can't get out of this hum drum scene  
Time to turn this thing upside down  
Show these people what you really mean  
Everything that you could lose your mind  
Could it be the big dream you'll find  
No more waiting 'cause it's almost time  
Everything is gonna be alright  
Crashing through the stars, alright  
I'm screaming 'til the stars collide  
I'm tellin' everybody, that's right We all got the spark  
We all got the spark tonight  
Takin' back the way we are  
'Cause that's just the way we are  
I'm crashing through the dark, well alright We all got the spark  
We all got the spark tonight  
I'mma feel this forever  
Or even if it's just tonight  
I can see the end much clearer Even when I close my eyes

Tryin' to keep myself from falling  
Tryin' to get this thing right  
I gotta do this more often Well, well maybe tonight  
Crashing through the stars, alright  
I'm screaming 'til the stars collide  
I'm tellin' everybody, that's right We all got the spark  
We all got the spark tonight  
Takin' back the way we are  
'Cause that's just the way we are  
I'm crashing through the dark, well alright  
We all got the spark  
We all got the spark tonight  
(Yeah, we all got the spark  
We all got the spark tonight)  
(Yeah, we all got the spark  
We all got the spark tonight)
