

# Lock All the Doors

## Noel Gallagher's High Flying Birds

She wore a star-shaped tambourine  
The prettiest girl I'd ever seen  
Was standing lost and lonely on the shore  
I tried to catch her every night  
Dancing on the road in the candle light  
But I can't seem to reach her anymore  
Lock all the doors  
Maybe they'll never find us  
I can be sure like never before this time  
Get down on the floor  
Turn all the lights off inside  
I can be sure like never before this time  
You know it's mine  
You know it's mine  
She never hears me when I speak  
I gotta find out where that magic sleeps  
And I can feel you underneath my skin  
Ready for takeoff, love inside  
'Cause I don't wanna sail on the ocean wide  
'Cause we might never live to meet again  
Lock all the doors  
Maybe they'll never find us  
I can be sure like never before this time  
Get down on the floor  
Turn all the lights off inside  
I can be sure like never before this time  
You know it's mine  
You know it's mine  
Lock all the doors  
Maybe they'll never find us  
I can be sure like never before this time  
Get down on the floor  
Turn all the lights off inside  
I can be sure like never before this time  
You know it's mine  
You know it's mine  
You know it's mine
