

# Crush

## Selena Gomez & The Scene

I guess i should've known  
It wasn't gonna end okay  
You're such a troublemaker  
But i like it just that way. A bomb tick ticking With neither one of us to blame  
Just like a countdown ready to blow  
I sat around a lot and thought  
About the world without you  
no matter what you think  
Everything is not about you  
You think i'm still hung up on you  
well baby it's not true  
Now look at me  
the memories turn to dust  
There is only one explanation  
I wasn't really in love  
(i wasn't really in love)  
It was just a crush  
It was just a crush  
Sparks fly when we touch  
It was never enough  
It was just a crush  
It was just a crush  
Yeah  
you throw away the things  
you need  
There's nothing left to lose  
The things i never wanna be  
I owe it all to you  
You just can't help yourself  
It's just what you do  
'cause this is real life  
Not a Show  
Now look at me The memories turn to dust  
There is only one explanation  
I wasn't really in love  
(i wasn't really in love)  
It was just a crush  
It was just a crush  
Sparks fly when we touched  
It was never enough  
It was just a crush  
It was just a crush

Yeah  
You'll be fine Just find another girl  
To kick around  
Won't be long  
Until they all know what  
I figured out  
Now look at me the Memories turn to dust  
There's only one explanation  
I wasn't really in love (i wasn't really in love)  
It was just a crush  
(it just was a crush)  
Sparks fly when we touched  
It was never enough  
It was just a crush  
It was just a crush (it was just a crush)  
Yeah  
(it was just a crush)  
It was just a crush  
Yeah.
