

Ordinary Idols

Cold War Kids

I spiral down again
Such a struggle just to keep an ordinary love
Ain't got the time for friends
Why am I working so hard and barely keeping up? Who remains when you drop?
Who to call when it stops?
I spiral down again
Somebody protect me or I'm gone Why would you idolize me?
There's nothing I got that you don't
You keep on fantasizing
I'll always be the underdog
Give me more
Give me more
I'm the one you that you ignored
Give me more
Give me more
I'm the one you that you ignored
Where'd you find your confidence?
Are you willing to make a fool out of yourself?
It's a curse of common sense
We all wanna be something different, someone else You become what you watch
What I learned can't be taught
Imitation is not a sin
You are only guilty if you're caught Why would you idolize me?
There's nothing I got that you don't
You keep on fantasizing
I'll always be the underdog
Give me more
Give me more
I'm the one you that you ignored
Give me more
Give me more
I'm the one you that you ignored
This city's made for dreaming
It's like a Garden of Eden
Before the apple eating
We would just sleep and drink and play all day
But you will never fall in love
Oh you wanna be lifted up
You just wanna fall in love
No you will never fall in love Why would you idolize me?
There's nothing I got that you don't
Obsessing, fantasizing

I'll always be the underdog
Give me more
Give me more
Give me more, give me more, give me more
I'm the one you that you ignored
