

Boomerang

Why Don't We

Throw it back to you, girl
Go ahead and make your move
You a star in your own world
And the sky opens up for you
Mama said that they come through and go
She's got everything she needs to know to come back for you
She'll come back to you
Gone with the wind, girl
Cut through the clouds, don't you dare me, I will
Nobody wins, yeah
You'll end up, right back here, right back here, right back
I let you go, I set you free
Like boomerang, you come back to me
I let you go, I set you free
Like boomerang, you come back to me
Like boomerang, you come back to me
Like boomerang, you come back to me
Throw it back to me, girl
You don't gotta change your mind
Be what you would be, girl
Everybody needs some time
Mama said that they come through and go
She's got everything she needs to know to come back for you
She'll come back to you
Gone with the wind, girl
Cut through the clouds, don't you dare me, I will
Nobody wins, yeah
You'll end up, right back here, right back here, right back
I let you go, I set you free
Like boomerang, you come back to me
I let you go, I set you free
Like boomerang, you come back to me
Like boomerang, you come back to me
Like boomerang, you come back to me
