

One More Night

Cascada

You
Are all I can remember
After all that we've been through Forever in my heart
Now I'm through
And June feels like november
So can't believe it's true Too long we've been apart
One more night I wanna be with you
Where I wanna hold you tight It feels so right
Tonight
So leave it up to you And i think the time is right
To stop the fight
One more night I wanna be with you
Where I wanna hold you tight
It feels so right
Tonight So leave it up to you
And i think the time is right
To stop the fight Stop the fight.
Stop the fight.
Why can't true love be forever Why did my dream explode
The day you went away
Cause i will keep the spell together I wish you well of hope
A girl from yesterday
One more night I wanna be with you Where I wanna hold you tight
It feels so right
Tonight
So leave it up to you
And i think the time is right
To stop the fight
One more night I wanna be with you
Where I wanna hold you tight
It feels so right
Tonight
So leave it up to you
And i think the time is right
To stop the fight
Hey check it out now
